

MONEYS MODE OPERATOR PROGRAM

APPLICATION + OFFER SHEET

— Founder of MoneyMode Academy —

MoneyMode Academy

Operator Program (90 Days)

What this is

This is not a course. This is an operator apprenticeship.

You're applying to be trained inside a real creator management system. Month 1 you train on a live account under supervision. If you pass the standards, you get matched with a creator account to run.

Who this is for

People who want a real path to building a creator agency, and are willing to execute daily.

If you want "easy money" or motivation, don't apply.

Program structure

Month 1 – Operator Training (Live Account)

You train on a live account under supervision. You learn the full system end-to-end:

How we run chats and sell

How we handle scripts, KPIs, and QC standards

How we manage daily operations, reporting, and growth

You will be graded on execution, quality, and discipline.

Month 2–3 – Placement + Scaling

If you pass Month 1 standards, you will be matched with a creator account to manage.

You'll run it using the same systems you trained on, with ongoing guidance and check-ins.

Important: creator placement is earned

A creator account is not guaranteed on Day 1. You earn it after proving you can handle the job without harming the creator or the business.

What you get

Hands-on training on a real account (not theory)

The full operating system: scripts, KPIs, SOPs, daily reporting methods

Weekly coaching + corrections

If accepted after Month 1: a creator account placement to run

Pricing

\$4,999 paid in full

or \$2,000 per month for 3 months

How acceptance works

Step 1: You submit the application.

Step 2: If you look like a fit, you receive a booking + payment link.

Step 3: Once paid, you start immediately with Day 1 onboarding.

Standards to earn creator placement (first 30 days)

You must hit all of these to qualify:

Execution: no missed training days

Discipline: daily assignments completed on time

Quality: QC-approved chat quality (no sloppy, risky, or low-effort messaging)

Competence: pass script tests and roleplay checks

Performance: meet targets based on the volume you're given

Professionalism: no red-flag behavior

If you don't pass in 30 days

You remain in training until you pass, or you exit the program.

The goal is to protect creators and only place real operators.

Application Form

This is an application to join my 90-day Operator Program.
If accepted, you'll receive the booking + payment link.

Creator placement is earned after passing the first 30 days.

Apply here: <https://rebrand.ly/MoneyModeApp>

If you're a fit, you'll get next steps. If not, you won't hear back.
